

To: Nuc Med SPECT facilities
From: Tony D. Murphy, MS DABR, Medical Physicist
Re: **Medical Physicist Continuing Experience Requirements**
Date: February 7, 2023

The ACR requires the all Nuc Med SPECT Medical Physicists to meet the Continuing Experience requirements of the Accreditation program. This requirement is that the Medical Physicist must have completed at least 2 SPECT gamma camera surveys in the prior 24 months.

In order to meet this rule, and to avoid having an incomplete # of facilities and units, I will be providing a list of more than two facility's where I have performed surveys in the previous 24 months. There are other facilities that are not on this list, so more documentation can be provided if requested. If you should have any further questions, please feel free to contact me at the above number or email me at the above email address.

<u>Facility</u>	<u>Date of survey</u>
St Cloud Hospital Health Plaza T SPECT	3-3-22
St Cloud Hospital Health Plaza Symbia S SPECT	3-3-22
CentraCare Heart and Vascular Center Symbia E	11-1-21
CentraCare Heart and Vascular Center Intevo Excel	9-1-21
CentraCare Heart and Vascular Center Truck 2	12-1-21

Tony D. Murphy, MS DABR
