Re: **Medical Physicist Continuing Experience Requirements**
Date: February 7, 2023

The ACR requires the all PET Medical Physicists to meet the Continuing Experience requirements of the Accreditation program. This requirement is that the Medical Physicist must have completed at least 2 PET camera surveys in the prior 24 months.

In order to meet this rule, and to avoid having an incomplete # of facilities and units, I will be providing a list of more than two facility's where I have performed surveys in the previous 24 months. There are other facilities that are not on this list, so more documentation can be provided if requested. If you should have any further questions, please feel free to contact me at the above number or email me at the above email address.

<u>Facility</u>	<u>Date of survey</u>
Rayus Alexandria PET	2-6-23
Midwest Radiology Southdale/Lifescan PET	10-6-22
Carris Health (Rice Memorial Hosp) Willmar PET	6-21-22
VA Medical Center Mpls PET	3-29-22
Midwest Radiology DTO PET	2-21-22

Tony D. Murphy, MS DABR

A handwritten signature in black ink that reads "Tony D. Murphy". The signature is written in a cursive, flowing style.
